---

Front-end developer skilled in HTML, CSS, Tailwind CSS, Bootstrap, and JavaScript. Proficient in MySQL for database storage and PHP for data retrieval. Seeking internship opportunities.

### LIVE PROJECT

---

#### Amet services

- Collaborated closely with design teams and senior developers and actively participated in meetings to align technical implementation with mock designs that meet accessibility standards, resulting in visually appealing and user-friendly web applications that resulted in a 30% improvement in user engagement
- Tested and debugged code to ensure cross-browser compatibility and optimal performance
- Implemented EmailJS SDK so that website admin can relatively collect email request from visiting users

### SELECTED PROJECTS

---

#### Quiz Arena

Built a secure web app with HTML, Tailwind CSS, and JavaScript, storing user data in MySQL. and employed PHP for seamless input retrieval and updates.

#### Star Light

- Developed a responsive fintech dashboard for seamless finance management using HTML, Tailwind CSS, and JavaScript.

#### Movie-freak

- Developed a website using HTML, CSS, and JavaScript, integrating the OMDB API to fetch movie data dynamically.
